Same Window, Every Afternoon

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every afternoon the dog takes his spot at the same living room window: climbing onto the window seat, settling in, watching the street, sharing the view with the owner and finally spotting her partner's car coming home.

TIMELINE

0-5s	Taking his spot
5-10s	Settling in
10-15s	Watching the street
15-20s	Sharing the view
20-25s	His car arrives

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Taking his spot): Living room, late afternoon sun coming through a wide window, a cushioned window seat with a faded blue cushion. The dog walks over without being called, steps up onto the seat and sits facing the street, ears forward. A few toys lie scattered on the rug nearby. Sound: claws on the floor, cushion creaking, owner says "right on time". 5-10s (Settling in): Same window seat, warm afternoon daylight, curtains tied back. The owner's hand lays a folded fleece blanket next to him. The dog lies down on it, rests his chin on the windowsill and lets out a long breath, still watching outside. Sound: blanket rustling, a soft sigh, birds outside. 10-15s (Watching the street): Close view of the dog at the window seat, afternoon light on his grey coat, a quiet street with parked cars soft in the background. Two kids ride bikes past on the sidewalk outside and his ears swivel to follow them, his head turning slowly. Sound: faint bike bells outside, the dog's quiet sniffing. 15-20s (Sharing the view): Window seat, afternoon daylight. The owner, a woman in her early 30s with dark wavy shoulder-length hair, sits down beside him with a mug of tea and puts her arm around his shoulders. He leans into her a little and they both look out at the street. Sound: mug set on the sill, quiet street, owner says "what are we watching?". 20-25s (His car arrives): Same window, late afternoon light. A silver car pulls into the driveway outside. The dog jumps up, tail sweeping fast, and hops off the window seat heading for the front door as her partner, a man in his early 30s with glasses and short hair, steps out of the car. Sound: car engine stopping outside, excited whine, claws scrambling on the floor.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Taking his spot

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room, late afternoon sun coming through a wide window, a cushioned window seat with a faded blue cushion. The dog walks over without being called, steps up onto the seat and sits facing the street, ears forward. A few toys lie scattered on the rug nearby. Sound: claws on the floor, cushion creaking, owner says "right on time".

Clip 2 | 5-10s | Settling in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
