Resting His Head on My Heart

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A lazy sunny Sunday on the couch: the owner reads, the dog walks over and rests his head on her chest, she strokes his ears, he settles in closer and they both doze off.

TIMELINE

0-5s	Reading on couch
5-10s	Chin on her chest
10-15s	Ear strokes
15-20s	Climbing closer
20-25s	Dozing together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Reading on couch): Living room, bright Sunday afternoon sunlight through sheer curtains, a soft grey couch. The owner, a woman in her early 30s with dark wavy shoulder-length hair, lies back reading a paperback with the cover facing away. The dog lies on the rug below, watching her. Sound: page turning, birds outside, quiet room. 5-10s (Chin on her chest): Same couch, point of view from the owner lying back. The dog stands up, walks to the couch and gently rests his chin right on the middle of her chest, his warm brown eyes looking up at her, tail swaying low. Sound: a soft huff, tags clinking, owner laughs "hi there". 10-15s (Ear strokes): Close view from the owner's point of view, sunny living room. She sets the book aside and her hand strokes the dog's ears and the top of his head. His eyes half close and his head rises and falls a little with her breathing. Sound: soft fur rubbing, slow breathing, a content groan. 15-20s (Climbing closer): Same couch, afternoon sunlight. The dog carefully puts his front legs up on the couch so his front half lies across her stomach, back paws still on the floor, then settles his head back over her heart with a long sigh. Sound: couch creaking, a deep sigh, owner whispers "you can hear it, huh?". 20-25s (Dozing together): Same view, sunlight on the couch. The dog's eyes are closed and his breathing slows. The owner's hand rests on his back, rising and falling with his breaths. The camera dips a little as she relaxes too. Sunlight from the curtains falls across the rug and his grey back. Sound: slow breathing, a tiny snore, clock ticking quietly.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Reading on couch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room, bright Sunday afternoon sunlight through sheer curtains, a soft grey couch. The owner, a woman in her early 30s with dark wavy shoulder-length hair, lies back reading a paperback with the cover facing away. The dog lies on the rug below, watching her. Sound: page turning, birds outside, quiet room.

Clip 2 | 5-10s | Chin on her chest

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
