Keeping Me Company in the Garden

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cloudy morning in the backyard vegetable garden: planting seedlings, watering, pulling weeds and resting on the bench, with the dog lying nearby keeping her company the whole time.

TIMELINE

0-5s	Planting seedlings
5-10s	Watering can sniff
10-15s	Weeding watch
15-20s	Bench break
20-25s	Stick and stay

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Planting seedlings): Backyard vegetable garden, overcast morning daylight, a wooden raised bed with dark soil. The owner's gloved hands press a small tomato seedling into the soil. The dog lies on the grass a few feet away, head up, watching her work. Sound: soil crumbling, birds, distant lawnmower. 5-10s (Watering can sniff): Same garden, cloudy daylight, wooden fence behind. The owner tips a green plastic watering can over the new seedlings. The dog gets up, walks over and sniffs the dripping spout, then sneezes and steps back, tail wagging. Rows of small lettuce plants line the soil. Sound: water pattering on soil, a sneeze, owner laughs "not for you". 10-15s (Weeding watch): Garden path of worn stepping stones, overcast light. The owner kneels on a foam pad, pulling weeds into a small bucket. The dog lies right beside her on the grass, chin resting on his paws, eyes following her hands. A few pulled weeds lie in a small pile on the stones. Sound: weeds tearing, bucket rattling, quiet breeze. 15-20s (Bench break): Old wooden garden bench by the fence, cloudy morning light, potted herbs on the ground. The owner, a woman in her early 30s with dark wavy shoulder-length hair tied back, sits down and pulls off her gloves. The dog comes and sits against her legs, leaning in. Sound: bench creaking, gloves slapped together, a happy sigh. 20-25s (Stick and stay): Grass beside the bench, overcast daylight. The dog picks up a small twig, lies down at the owner's feet and chews it gently while her hand scratches behind his ears. Behind them the freshly planted raised bed is visible. A muddy pair of gloves lies on the bench. Sound: twig cracking softly, birds, owner says "best garden buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
