Quiet Evenings on the Back Porch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A warm summer evening on the back porch: sitting in the rocking chair, watching the yard, feet resting on the dog, the porch light clicking on and a slow belly rub to end the day.

TIMELINE

0-5s	Rocking chair start
5-10s	Watching the yard
10-15s	Feet on his back
15-20s	Porch light on
20-25s	Belly rub

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Rocking chair start): Wooden back porch at dusk, fading natural daylight, a white rocking chair and a small side table with a glass of iced tea. The owner sits rocking slowly and the dog lies stretched out on the porch boards beside her. Sound: crickets starting, chair creaking, ice clinking in a glass. 5-10s (Watching the yard): Same porch, dusk light over a backyard with long grass and a wooden fence. The dog lifts his head and watches a rabbit at the far edge of the yard, ears forward, but stays lying down, tail slowly tapping the boards. Sound: crickets, tail tapping wood, owner whispers "leave it, buddy". 10-15s (Feet on his back): Porch at dusk, view down from the rocking chair. The owner's bare feet rest gently on the dog's side as he lies flat on the warm boards. He lets out a long breath and stays relaxed, eyes half closed. Her sandals lie kicked off beside the chair. Sound: a long sigh, crickets, distant neighbor's sprinkler. 15-20s (Porch light on): Back porch as it gets dark, the plain porch light above the door clicks on, a few moths circling it. The owner, a woman in her early 30s with dark wavy shoulder-length hair, leans forward in the chair and the dog sits up, looking at her. Sound: porch light click, moths tapping the bulb, crickets louder. 20-25s (Belly rub): Porch boards under the ordinary porch light. The dog rolls onto his side and then his back, front paws curled. The owner's hand rubs his chest and belly slowly and his back leg kicks a little. The yard beyond the railing is now dark and quiet. Sound: leg thumping on the boards, crickets, owner laughs softly "every night".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
