He Knows When I'm Tired

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

On a draining day the dog seems to sense it: he lies against her on the couch, joins her on the kitchen floor, brings a slipper, rests his head on her arm and keeps watch while she naps.

TIMELINE

0-5s	Couch collapse
5-10s	Kitchen floor sit
10-15s	Bringing a slipper
15-20s	Head on her arm
20-25s	Keeping watch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Couch collapse): Living room, flat grey early-evening daylight, rumpled couch. The owner, a woman in her early 30s with dark wavy shoulder-length hair, lies down with her eyes closed. The dog walks over, sniffs her face gently and lies on the floor right against the couch. Sound: couch creaking, tired exhale, soft sniffing. 5-10s (Kitchen floor sit): Kitchen, ordinary ceiling light, beige tile floor. The owner sits on the floor leaning back against a lower cabinet, knees up. The dog walks in, lies down next to her and puts his head in her lap without being asked. Sound: fridge humming, a quiet sigh, tags clinking. 10-15s (Bringing a slipper): Same kitchen floor, evening light. The dog gets up, trots into the hallway and comes back holding one fuzzy grey slipper in his mouth. He drops it softly by her feet and looks at her, tail swaying. Her work bag still sits on the counter behind her. Sound: claws on tiles, slipper dropping, owner laughs "thank you". 15-20s (Head on her arm): Back on the living room couch, a table lamp now on, evening. The owner lies on her side with her arm hanging over the edge. The dog rests his chin on her forearm and stays very still, eyes on her face. Sound: quiet room, slow breathing, owner whispers "you always know". 20-25s (Keeping watch): Living room in lamp light, view from the owner resting on the couch. The dog lies on the rug facing the room with his head up, ears relaxed but alert, keeping watch while her hand dangles and touches his back. Sound: clock ticking, a soft sigh, distant car outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
