Our Walk Every Single Evening

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The same evening walk every day: leash on at the door, the sidewalk past neighbors' houses, his favorite sniffing tree, sitting at the same corner and coming home under the porch light.

TIMELINE

0-5s	Leash at door
5-10s	Neighborhood sidewalk
10-15s	Favorite tree
15-20s	Corner sit
20-25s	Home again

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Leash at door): Front entry in the early evening, warm summer daylight through the screen door, sneakers on a mat. The owner's hand clips a green leash to the dog's collar. He stands still, tail sweeping, nose pointed at the door. A folded poop bag holder hangs from the leash handle. Sound: leash clip snapping, tail hitting the wall, owner says "same time, same walk". 5-10s (Neighborhood sidewalk): Quiet residential sidewalk at dusk, ordinary houses with small lawns, a few lit windows. The dog trots ahead on a loose leash, the owner's arm visible holding it, his ears up and tail relaxed. Bikes and recycling bins sit in the driveways they pass, and the sky turns soft pink and grey above the rooftops. Sound: footsteps, sprinkler ticking, distant dog barking. 10-15s (Favorite tree): Old oak tree on a grass strip by the curb, dusk light. The dog stops exactly at the trunk and sniffs around the roots for a long time, nose working, while the owner waits with the leash slack. Fallen acorns lie scattered in the short grass. Sound: sniffing, crickets, owner laughs "every single time". 15-20s (Corner sit): Street corner with a low curb, early evening light fading, a quiet road with one parked car. The dog sits at the curb without being asked and looks up at the owner, a woman with dark wavy shoulder-length hair, waiting for her to cross. Sound: quiet street, a passing car far away, owner says "good boy". 20-25s (Home again): Front path of the house after dark, the ordinary porch light on, moths around it. The dog trots up the steps ahead of the owner and waits by the door, panting happily, tail swaying. A doormat and a pair of muddy sneakers sit by the front door, and a hanging plant sways slightly in the warm night air. Sound: panting, steps creaking, keys jingling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
