Our Sunday Drive Ritual

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The weekly Sunday drive: buckling his harness in the back seat, watching the countryside, a stop at a quiet pull-off, a water break and a sleepy ride home.

TIMELINE

0-5s	Harness buckle
5-10s	Countryside view
10-15s	Partner driving
15-20s	Pull-off stretch
20-25s	Sleepy ride home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Harness buckle): Back seat of a small hatchback parked in a driveway, sunny morning light. The dog sits on a grey seat cover wearing a black car harness. The owner's hand clips the seat belt tether to the harness and he wags. Sound: buckle clicking, birds, owner says "ready for our drive?". 5-10s (Countryside view): Inside the moving car, bright morning light, the owner filming from the front passenger seat turned back. The dog sits harnessed in the back seat with the window cracked a few inches, his nose at the gap, green fields passing outside. Sound: road noise, wind whistling through the gap, sniffing. 10-15s (Partner driving): Inside the car, sunny daylight. Her partner, a man in his early 30s with glasses and short hair, drives with both hands on the wheel. The dog leans forward in his harness and rests his chin on the center armrest between the seats. Sound: turn signal ticking, soft radio talk, partner says "hi copilot". 15-20s (Pull-off stretch): Quiet gravel pull-off beside farm fields, sunny late morning, a wooden fence and tall grass. The dog walks on a leash beside the owner's legs, sniffing the fence posts and the grass, tail up. Their small hatchback is parked on the gravel behind them, doors open, and a few white clouds drift over the fields. Sound: gravel crunching, wind in the grass, cows mooing far away. 20-25s (Sleepy ride home): Back seat of the car, afternoon sun coming through the windows. The dog lies down in his harness with his head resting on a folded denim jacket, eyes closing as the car moves. Fields and fence posts pass by outside the window, and an empty water bottle rolls gently on the floor mat below the seat. Sound: steady road hum, a deep sigh, owner whispers "tired already".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Harness buckle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Back seat of a small hatchback parked in a driveway, sunny morning light. The dog sits on a grey seat cover wearing a black car harness. The owner's hand clips the seat belt tether to the harness and he wags. Sound: buckle clicking, birds, owner says "ready for our drive?".

Clip 2 | 5-10s | Countryside view

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
