Our Favorite Bench in the Park

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Walking to the same old park bench every week: heading straight to it, sitting together, chin on her knee, a water break and one last look back as they leave.

TIMELINE

0-5s	Straight to bench
5-10s	Sitting together
10-15s	Chin on knee
15-20s	Water break
20-25s	Looking back

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Straight to bench): City park path, bright afternoon daylight, tall maple trees and a pond in the distance. The dog pulls gently on his leash toward an old green wooden bench under a maple, tail wagging, clearly knowing the way. Joggers and a woman with a stroller pass far in the background. Sound: footsteps on the path, ducks quacking far off, owner laughs "yes, our bench". 5-10s (Sitting together): Old green park bench, afternoon light through maple leaves. The owner, a woman in her early 30s with dark wavy shoulder-length hair, sits down. The dog sits on the grass right next to the bench, pressed against her leg, looking out at the pond. Sound: bench creaking, leaves rustling, distant kids playing. 10-15s (Chin on knee): Same bench, dappled afternoon shade. The dog turns and rests his chin on the owner's knee, eyes looking up at her. Her hand strokes the top of his head and down his neck. His leash lies loose across her lap, and a few fallen leaves rest on the bench seat beside her. Sound: soft fur rubbing, birds, owner says "I know, I love it here too". 15-20s (Water break): Grass in front of the bench, afternoon daylight. The owner's hand pours water from a plastic bottle into a blue collapsible bowl on the ground. The dog laps it up, water dripping from his chin onto the grass. Her sneakers are visible at the edge of the frame. Sound: water pouring, loud lapping, dripping. 20-25s (Looking back): Park path leading away from the bench, late afternoon light. The dog walks a few steps on his leash, then stops and looks back over his shoulder at the empty green bench under the maple before trotting on. Long tree shadows stretch across the grass and the path. Sound: footsteps, ducks, owner says "we will come back next week".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
