Watching Me Leave From the Window

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The owner leaves for work in the morning: a goodbye at the door, turning back to see him at the window, a wave from the car, coming home to find him at the same window and a happy greeting inside.

TIMELINE

0-5s	Goodbye at door
5-10s	Looking back
10-15s	Wave from car
15-20s	Still at window
20-25s	Happy greeting

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Goodbye at door): Front entry, bright morning daylight, a work bag on the floor. The owner, a woman in her early 30s with dark wavy shoulder-length hair, crouches and kisses the top of the dog's head and hands him a long chew. He holds it and watches her. Sound: kiss, chew taken, owner says "be good, I will be back". 5-10s (Looking back): Front walkway outside a small house, morning sunlight, neat bushes. Filmed by the owner turning around halfway down the path: the dog stands with his front paws on the sill of the open front window behind the mesh screen, watching her go. Sound: birds, footsteps on concrete, owner laughs softly. 10-15s (Wave from car): Driveway, morning daylight, filmed from the driver seat of a parked car through the open side window. The dog is still at the screened front window, ears up, head tilting as the owner's hand waves at him. A coffee cup sits in the cup holder by her hand. Sound: engine idling, owner calls "bye, buddy". 15-20s (Still at window): Same front walkway, late afternoon light, filmed as the owner walks back toward the house. The dog is at the same open screened window, and when he sees her his ears shoot up and his tail starts wagging. The front lawn is a little longer than this morning. Sound: car door closing, excited bark from inside, birds. 20-25s (Happy greeting): Front entry inside, afternoon light. The door opens and the dog rushes up and presses against the owner's legs, whining and wagging, the half-chewed chew still lying on the mat behind him. Her work bag drops onto the floor beside the shoe rack while he leans his weight into her and sniffs her coat sleeve carefully. Sound: happy whining, tags jingling, owner says "told you I would come back".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
