The Welcome Home Wiggle

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The full welcome home routine: whining behind the door, the whole-body wiggle, a toy parade, a belly-up flop and following her into the kitchen while she unpacks groceries.

TIMELINE

0-5s	Whining at door
5-10s	Whole-body wiggle
10-15s	Toy parade
15-20s	Belly-up flop
20-25s	Kitchen follow

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Whining at door): Front porch of a small house, cloudy afternoon daylight, filmed as the owner's hand turns a key in the front door lock, grocery bag on her arm. From behind the door comes excited whining and claws tapping on the floor. Sound: key turning, muffled whining, claws tapping inside. 5-10s (Whole-body wiggle): Front hallway, cloudy daylight through the open door, wooden floor. The dog wiggles his whole body, curving into a U-shape, back end swinging side to side, tail going in circles, as he pushes against the owner's legs. A small rug bunches up under his paws. Sound: happy whines, tail thumping the wall, owner laughs "hi, hi, hi". 10-15s (Toy parade): Same hallway, daylight. The dog grabs a floppy plush squirrel from the floor and trots in a circle around the owner, holding it high, still wiggling, squeaking it twice. The front door is still open behind them with the grocery bag on the floor, and a few shoes lie knocked over by his excited circling. Sound: squeaky toy, claws on wood, owner says "you brought me a present?". 15-20s (Belly-up flop): Entry rug by the door, cloudy afternoon light, shoes scattered. The dog drops the toy and flops onto his back on the rug, legs in the air, wiggling side to side. The owner's hand rubs his chest. His toy squirrel lies tossed aside nearby. Sound: rug rustling, happy grunts, laughing. 20-25s (Kitchen follow): Kitchen, daylight from the window, beige tile floor. The owner, a woman in her early 30s with dark wavy shoulder-length hair, sets grocery bags on the counter. The dog stays pressed against her legs, tail still wagging nonstop. A bunch of bananas spills from one bag. Sound: paper bags rustling, tail thumping a cabinet, panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
