Late Night Talks on the Lawn

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A warm summer night on the front lawn: sitting on a blanket, talking to him quietly, listening to crickets, lying back with his chin on her stomach and walking back to the porch.

TIMELINE

0-5s	Blanket on lawn
5-10s	Quiet talk
10-15s	Listening to night
15-20s	Chin on stomach
20-25s	Back to porch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Blanket on lawn): Front lawn at night, lit by the ordinary porch light behind and a streetlamp down the road. The owner spreads a plaid blanket on the grass and sits. The dog lies down on the blanket beside her, facing the quiet street. Sound: crickets, blanket rustling, distant car. 5-10s (Quiet talk): Same lawn at night, porch light. The owner, a woman in her early 30s with dark wavy shoulder-length hair in a hoodie, strokes the dog's neck and talks softly to him. He turns his head to look at her, ears moving. Sound: crickets, owner whispers "you are my best friend, you know that?". 10-15s (Listening to night): Front lawn at night, porch light on the grass. The dog lifts his head and turns his ears toward the dark trees across the street, listening to a sound, then relaxes and lies back down. A neighbor's porch light shines faintly across the street, and the blanket edge flutters a little in the warm breeze. Sound: an owl hooting far away, crickets, soft panting. 15-20s (Chin on stomach): Blanket on the lawn at night, porch light. The owner lies back on the blanket and the dog shifts closer and rests his chin on her stomach. Her hand lies on his head as he looks toward the street. Her sneakers sit on the grass at the edge of the blanket. Sound: crickets, slow breathing, a soft sigh. 20-25s (Back to porch): Front path at night, warm porch light, moths around the bulb. The owner picks up the blanket and the dog walks beside her up the porch steps, stopping on the top step to wait for her. Behind them the dark lawn and the streetlamp down the road look still, and a pair of flip-flops waits on the doormat. Sound: crickets, steps creaking, owner says "same time tomorrow".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
