Journaling With Him by My Side

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet journaling morning: writing at the kitchen table with the dog on her feet, an ear scratch break, his chin on the blank page, and moving out to the porch steps to finish together.

TIMELINE

0-5s	Morning pages start
5-10s	Ear scratch break
10-15s	Chin on the page
15-20s	Moving outside
20-25s	Writing together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Morning pages start): Kitchen table by a window, soft morning daylight, a mug of tea and a notebook with the pages angled away from the camera. The owner's hand holds a pen. Under the table the dog lies with his body across her bare feet. Sound: pen scratching, birds outside, quiet kitchen. 5-10s (Ear scratch break): Same kitchen table, morning light. The owner, a woman in her early 30s with dark wavy shoulder-length hair, puts the pen down and leans to the side to scratch behind the dog's ears. He tilts his head into her hand. Sound: pen set down, fur rubbing, a happy groan. 10-15s (Chin on the page): Kitchen table close up, morning daylight. The dog sits up and rests his chin right on the open notebook, which shows only a blank page, looking up at the owner with his brown eyes. Her mug of tea and the pen rest beside the notebook, and the steam drifts up in the window light. Sound: soft huff, owner laughs "are you writing too?". 15-20s (Moving outside): Front porch steps, mild morning sunlight, a potted fern by the railing. The owner sits on the top step with the closed notebook on her knees. The dog lies down on the step beside her, shoulder touching her hip. Her mug of tea sits on the step beside her. Sound: birds, a neighbor's door closing, quiet breeze. 20-25s (Writing together): Same porch steps, morning light. The owner writes in the notebook with the page facing away from the camera, while her other hand rests on the dog's back. He watches the street, calm and content. A neighbor walks past far down the sidewalk, and leaves shift on the small tree in the front yard. Sound: pen scratching, birdsong, a soft sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
