Sharing a Blanket in Winter

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Snowy winter days under one blanket: cuddling on the floor by the couch, a head poking out, a quick look at the snow wrapped up together on the back step and the blanket stolen by morning.

TIMELINE

0-5s	Floor blanket cuddle
5-10s	Crawling under
10-15s	Head pokes out
15-20s	Snowy back step
20-25s	Blanket thief

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Floor blanket cuddle): Living room on a snowy evening, snow falling outside the window, a table lamp and a radiator on. The owner sits on the rug leaning against the couch under a thick grey blanket. The dog walks over and pushes his head under the edge. Sound: radiator ticking, blanket rustling, owner laughs "get in". 5-10s (Crawling under): Same living room, lamp light. The dog crawls fully under the blanket next to the owner and lies down, a big lump against her side, only his tail sticking out and slowly wagging. Snowflakes keep drifting past the dark window behind them, a mug of hot tea for her sits on the side table and the lamp light falls on the rug. Sound: rustling, a muffled sigh, tail thumping the rug. 10-15s (Head pokes out): Couch in lamp light, snowy evening. The owner, a woman in her early 30s with dark wavy shoulder-length hair in a thick sweater, now sits on the couch under the blanket. The dog's head pokes out from under it beside her, ears flattened, eyes sleepy. Sound: soft rustling, crackling radiator, owner whispers "cozy?". 15-20s (Snowy back step): Back step of the house, snowy late evening, the plain porch light lighting falling flakes. The owner stands with the blanket around her shoulders and wraps one side over the dog sitting beside her as he sniffs the cold air. Sound: quiet snowfall, a gust of wind, owner says "brr, okay, inside". 20-25s (Blanket thief): Bedroom the next morning, cold grey snowy daylight through the window. The grey blanket is piled on the dog's bed on the floor, and he is curled underneath it with just his nose and one ear showing. Frost edges the corners of the window glass. Sound: quiet morning, a sleepy groan, owner laughs "thief".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Floor blanket cuddle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room on a snowy evening, snow falling outside the window, a table lamp and a radiator on. The owner sits on the rug leaning against the couch under a thick grey blanket. The dog walks over and pushes his head under the edge. Sound: radiator ticking, blanket rustling, owner laughs "get in".

Clip 2 | 5-10s | Crawling under

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
