Autumn Walk Through Our Old Neighborhood

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An autumn visit to the street where they first lived together: crunching through leaves, sniffing a familiar oak, stopping at their old front gate, the little park corner and a hug on the curb.

TIMELINE

0-5s	Leaf crunching
5-10s	Familiar oak
10-15s	Old front gate
15-20s	Park corner
20-25s	Curb hug

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Leaf crunching): Sidewalk on a tree-lined street of old brick houses, crisp autumn afternoon, orange and yellow leaves covering the ground. The dog walks on his leash through the leaves, kicking them up, nose down, tail high. Cars sit parked under the trees along the curb, and the porches are decorated with pumpkins and dried corn stalks. Sound: leaves crunching, wind, owner says "remember this street?". 5-10s (Familiar oak): Big oak tree by the curb, autumn daylight through thinning branches. The dog stops at the trunk and sniffs it very carefully all around, tail slowly wagging faster, as if he recognizes it. Roots push up the old sidewalk slabs around the tree, and acorns lie scattered among the fallen leaves. Sound: sniffing, leaves rustling, distant church bell. 10-15s (Old front gate): Low black iron gate in front of a small brick house, cloudy autumn afternoon, a leaf-covered path behind it. The dog stops at the gate, ears up, looking at the front door and wagging. The owner's hand rests on his back. Sound: quiet street, a soft whine, owner whispers "our first home". 15-20s (Park corner): Small corner park with a few bare benches and a leaf-covered lawn, autumn light. The dog rolls on his back in a pile of dry leaves, legs kicking, then jumps up and shakes, leaves flying off his grey coat. The owner's sneakers stand at the edge of the pile. Sound: leaves crunching, laughter, shaking collar tags. 20-25s (Curb hug): Curb on the old street, late autumn afternoon light, leaves in the gutter. The owner, a woman in her early 30s with dark wavy shoulder-length hair in a mustard scarf, sits on the curb and hugs the dog as he leans against her. Sound: wind, leaves skittering, owner says "we came so far, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
