I Promise to Always Come Back

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Before a short work trip the owner makes him a promise: he lies in her suitcase, she says goodbye at the door, he watches from the porch with her partner, and days later she comes home to a joyful reunion and a long hug.

TIMELINE

0-5s	Suitcase sitter
5-10s	The promise
10-15s	Watching from porch

20-25s	The long hug

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Suitcase sitter): Bedroom, morning daylight through white curtains, an open blue suitcase on the floor half packed with folded clothes. The dog steps into the suitcase, lies down on the clothes and looks up at the camera. A pair of sneakers and a toiletry bag lie on the bed, and the floor is a little messy with packing. Sound: zipper jingling, owner laughs "you cannot come, buddy". 5-10s (The promise): Front entry, morning light, the closed suitcase by the door. The owner, a woman in her early 30s with dark wavy shoulder-length hair, kneels and holds the dog's face gently in both hands, forehead to his forehead. He stays still. Sound: quiet house, owner whispers "I promise I will always come back". 10-15s (Watching from porch): Front porch, cloudy morning, filmed from the driveway as the owner walks to the car. The dog sits on the porch next to her partner, a man in his early 30s with glasses and short hair, who rests a hand on his back. The dog watches her. Sound: car door opening, birds, partner says "we will be right here". 15-20s (The reunion run): Same driveway three days later, sunny afternoon, filmed by the owner stepping out of the car. The front door opens and the dog runs down the porch steps and across the lawn toward her, ears back, tail spinning. The partner stands in the doorway holding the door open. Sound: excited barking, paws on grass, owner calls "I am home!". 20-25s (The long hug): Front lawn, sunny afternoon, suitcase standing on the driveway. The owner kneels on the grass and the dog pushes into her arms, whining and licking her cheek, his whole body wiggling as she hugs his neck. Her partner smiles in the background on the porch steps. Sound: happy whining, laughter, owner says "I told you, always".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
