Back to the Beach From His First Summer

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A return trip to the beach from the dog's first summer with the family: down the boardwalk, paws in the foam, digging in the sand, lying on the same old striped towel and an evening walk back.

TIMELINE

0-5s	Down the boardwalk
5-10s	Paws in the foam
10-15s	Digging a hole
15-20s	Same old towel
20-25s	Walking back

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Down the boardwalk): Wooden beach boardwalk on a bright breezy summer morning, sand drifting over the boards, dune grass on both sides. The dog trots down the steps onto the sand ahead of the owner, whose bare feet and the hem of her denim shorts are visible. He stops at the bottom, ears forward, nose working, staring out at the waves. Sound: waves, wind, gulls, footsteps on wooden boards. 5-10s (Paws in the foam): Wide sandy beach, sunny morning with a few white clouds, small gentle waves. The dog walks along the wet edge where thin foam washes over his paws, hops back each time the water reaches him, then bites playfully at the foam. The owner walks beside him at the waterline, only her ankles in frame. Sound: small waves rushing in, splashing paws, owner says "not scared anymore, huh?". 10-15s (Digging a hole): Dry sand higher up the same beach, bright midday sun, footprints everywhere and a blue cooler in the background. The dog digs fast with his front paws, sand flying out behind him, stops to push his whole face into the hole and sniff, then digs again. Sand sticks to his nose and whiskers. Sound: sand spraying, snorting, distant voices, waves. 15-20s (Same old towel): Same beach, sunny afternoon, a faded red and white striped towel spread on the sand, the same towel from his first summer here. The owner's hand smooths the towel flat and the dog steps onto it, turns in a circle and lies down, panting, ears relaxed, his sandy legs stretched out in front of him. Sound: waves, wind flapping the towel edge, owner says "same towel, buddy". 20-25s (Walking back): Late afternoon at the beach, soft low sunlight and long shadows across rippled sand. The dog walks beside the owner back toward the boardwalk on a loose leash, damp and sandy, tail swinging. He looks back over his shoulder at the water once before following her up the wooden steps. Sound: waves fading, gulls, tags jingling, footsteps on wood.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Down the boardwalk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Wooden beach boardwalk on a bright breezy summer morning, sand drifting over the boards, dune grass on both sides. The dog trots down the steps onto the sand ahead of the owner, whose bare feet and the hem of her denim shorts are visible. He stops at the bottom, ears forward, nose working, staring out at the waves. Sound: waves, wind, gulls, footsteps on wooden boards.

Clip 2 | 5-10s | Paws in the foam

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Wide sandy beach, sunny morning with a few white clouds, small gentle waves. He looks back over his shoulder at the water once before following her up the wooden steps. Sound: waves fading, gulls, tags jingling, footsteps on wood.

FACEBOOK CAPTION

His first summer he was scared of the waves.
Now he bites them. Same beach, same towel, same boy.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
