Five Years Together

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The fifth anniversary of the day the rescue dog came home: a morning belly rub in bed, unwrapping a new rope toy, retracing the first walk home, tug with the partner and a quiet night on the couch.

TIMELINE

0-5s	Morning belly rub
5-10s	Unwrapping a gift
10-15s	The first walk again
15-20s	Tug in the yard
20-25s	Couch at night

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Morning belly rub): Bedroom, early morning, soft daylight through thin white curtains, a rumpled grey duvet. The dog lies stretched across the foot of the bed on his back. The owner's hand reaches in and rubs his belly, he stretches all four legs out, wiggles on the duvet and lets out a long happy groan. Sound: duvet rustling, a happy groan, owner says "happy five years". 5-10s (Unwrapping a gift): Living room with beige carpet, morning daylight from a side window, a basket of laundry in the corner. The owner's hand sets down a small package wrapped in brown paper. The dog noses it, tears the paper with his teeth, pulls out a thick blue rope toy and gives it a proud shake. Sound: paper tearing, excited sniffing, rope toy thumping the floor. 10-15s (The first walk again): Quiet suburban sidewalk on a cool clear morning, parked cars, trimmed hedges and a few puddles. This is the same route from his first walk home from the shelter. The dog walks confidently on a loose leash, tail high, sniffing a hedge, while the owner's hand holds the leash slack. Sound: birds, a car door closing far away, owner says "you were so scared on this street". 15-20s (Tug in the yard): Backyard on a sunny afternoon, wooden fence, patchy lawn, a plastic chair. Her partner, a man in his early 30s with glasses and short hair, kneels on the grass and plays tug with the new blue rope toy. The dog pulls backward with his front legs braced and shakes his head, growling playfully. Sound: playful growls, partner laughing, rope creaking. 20-25s (Couch at night): Living room at night, ordinary warm lamp light, a grey couch with a knit throw. The dog lies on the couch with his head in the owner's lap, the blue rope toy tucked beside him. Her hand strokes his ear slowly, he sighs deeply and his eyes close. Sound: quiet room, a deep sigh, clock ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
