His First Toy Is Still His Favorite

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Years later the dog still loves the worn plush lamb from his first week home: choosing it over new toys, carrying it to greet the owner, watching it get washed, waiting under the drying rack and falling asleep with it.

TIMELINE

0-5s	Picking from the basket
5-10s	Greeting at the door
10-15s	Bath day for lamb
15-20s	Waiting by the rack
20-25s	Sleeping with it

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Picking from the basket): Living room corner, late morning daylight from a window, a wicker basket full of bright new dog toys on a wooden floor. The dog pushes his nose deep into the basket, nudges the new toys aside, and pulls out a small worn grey plush lamb with a bald patch, then trots off with it. Sound: toys rustling, a squeak, owner laughing "always that one". 5-10s (Greeting at the door): Front hallway, afternoon daylight from a small window, shoes and an umbrella by the door. The door opens and the dog comes trotting down the hall holding the worn plush lamb in his mouth, tail wagging hard, and presses it against the owner's legs in jeans as she steps in. Sound: door opening, keys, muffled squeaks, tail hitting the wall. 10-15s (Bath day for lamb): Small laundry room, overcast daylight from a high window, a white utility sink. The owner's hands gently wash the plush lamb in soapy water. The dog stands beside the sink with his front paws on a step stool, watching closely, nose twitching, ears forward the whole time. Sound: running water, a soft whine, owner says "he is getting a bath, not leaving". 15-20s (Waiting by the rack): Same laundry room, afternoon daylight, a folding clothes rack with the damp plush lamb pinned to it among a few towels. The dog lies on the tile floor right under the rack, chin on his paws, eyes fixed upward on the lamb, sighing and shifting but not leaving. Sound: dripping, a dryer humming, a long dog sigh. 20-25s (Sleeping with it): Living room at night, a single floor lamp on, a round brown dog bed by the couch. The dog is curled up asleep in his bed with the clean, fluffy plush lamb tucked under his chin. The owner's hand lightly touches the lamb and he gives a sleepy tail thump without opening his eyes. Sound: soft snoring, TV murmur in another room, one tail thump.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Picking from the basket

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room corner, late morning daylight from a window, a wicker basket full of bright new dog toys on a wooden floor. The dog pushes his nose deep into the basket, nudges the new toys aside, and pulls out a small worn grey plush lamb with a bald patch, then trots off with it. Sound: toys rustling, a squeak, owner laughing "always that one".

Clip 2 | 5-10s | Greeting at the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
