By My Side Through My Pregnancy

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Moments from the owner's pregnancy with the dog always close: resting his chin by her belly in bed, slow walks at her pace, lying at her feet in the kitchen, watching the nursery get painted and listening beside her on the couch.

TIMELINE

0-5s	Morning check-in
5-10s	Slow walk
10-15s	At her feet
15-20s	Nursery painting
20-25s	Listening on the couch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Morning check-in): Bedroom, early morning, pale daylight through linen curtains, white sheets. The owner, a woman with dark wavy shoulder-length hair, lies on her side in a loose grey t-shirt that shows her rounded pregnant belly. The dog stands by the bed and gently rests his chin on the mattress near her belly, eyes soft, tail slowly swaying. Sound: quiet morning, birds outside, owner whispers "good morning, protector". 5-10s (Slow walk): Neighborhood path beside a small pond, mild spring morning, overcast daylight, ducks on the water. The owner walks slowly in sneakers and leggings, her rounded belly visible in a t-shirt, and the dog walks right beside her on a loose leash, matching her slow pace and glancing up at her. Sound: ducks quacking, footsteps on gravel, tags jingling. 10-15s (At her feet): Kitchen, late morning daylight from a window over the sink, beige tile floor. The owner sits on a wooden stool sipping water, her rounded belly in a striped t-shirt in frame. The dog lies across her feet on the tiles, and when she shifts he lifts his head to check on her, then rests again. Sound: fridge humming, glass clinking, a soft dog sigh. 15-20s (Nursery painting): Small spare room turned nursery, afternoon daylight, drop cloth on the floor, an empty crib frame still in its box. Her partner, a man with glasses and short hair, rolls pale green paint onto the wall. The dog lies in the doorway, watching the roller go up and down, chin on his paws. Sound: paint roller squishing, radio playing quietly in another room. 20-25s (Listening on the couch): Living room in the evening, ordinary lamp light, a grey couch. The owner reclines on pillows, her rounded belly under a soft t-shirt. The dog sits on the floor and rests his chin on the couch cushion close to her belly, ears perked forward, very still, as her hand strokes his head. Sound: quiet room, owner laughs softly "she just kicked, did you feel that?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
