Lying Beside the Crib Every Night

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Since the baby came home, the dog sleeps beside the crib every night: settling in at bedtime, lifting his head at a fuss, keeping the partner company at a night feed, greeting the morning and walking in on his own the next night.

TIMELINE

0-5s	Bedtime
5-10s	A little fuss
10-15s	Night feed company
15-20s	Morning stretch
20-25s	His spot again

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Bedtime): Nursery at night, a small dim bedside lamp on, pale green walls, a white crib and a soft grey rug. The owner, a woman with dark wavy hair, lays the sleeping baby in the crib and steps back. The dog walks in quietly behind her and lies down on the rug right beside the crib, head up, ears relaxed. Sound: soft white noise machine, quiet footsteps, a tiny baby sigh. 5-10s (A little fuss): Same nursery later at night, very dim lamp light. The baby in the crib makes a small fussy sound. The dog lifts his head and looks at the crib, ears forward. Her partner, a man with glasses and short hair in a t-shirt, comes in, gently pats the baby, and the dog lays his head back down. Sound: white noise, a small baby whimper, soft shushing. 10-15s (Night feed company): Same nursery in the middle of the night, one dim lamp on. The partner, a man with glasses, sits in a rocking chair feeding the baby a bottle, wrapped in a blanket. The dog lies on the rug at his feet, eyes half open, watching the rocking chair move back and forth. Sound: rocking chair creaking, baby feeding sounds, white noise. 15-20s (Morning stretch): Same nursery in the early morning, pale grey daylight around the curtains. The owner lifts the awake baby out of the crib and holds her against her shoulder. The dog stands up from the rug, does a long front stretch, then wags slowly and sniffs the baby's tiny sock very gently. Sound: baby cooing, a doggy yawn, owner whispers "good morning, night guard". 20-25s (His spot again): Nursery the next night, dim lamp light, the baby asleep in the crib under a light blanket. The owner stands in the doorway filming. The dog walks in on his own, sniffs the crib rails once, turns a circle on the grey rug in the exact same spot and lies down with a quiet sigh. Sound: white noise, rug rustling, a soft dog sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Bedtime

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Nursery at night, a small dim bedside lamp on, pale green walls, a white crib and a soft grey rug. The owner, a woman with dark wavy hair, lays the sleeping baby in the crib and steps back. The dog walks in quietly behind her and lies down on the rug right beside the crib, head up, ears relaxed. Sound: soft white noise machine, quiet footsteps, a tiny baby sigh.

Clip 2 | 5-10s | A little fuss

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Same nursery later at night, very dim lamp light. The baby in the crib makes a small fussy sound. The dog lifts his head and looks at the crib, ears forward. Her partner, a man with glasses and short hair in a t-shirt, comes in, gently pats the baby, and the dog lays his head back down. Sound: white noise, a small baby whimper, soft shushing.

Clip 3 | 10-15s | Night feed company

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
