Walking Our Little One to Kindergarten

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog joins the morning walk to kindergarten: waiting by the door, walking the sidewalk with the child, a goodbye hug at the school gate, looking back on the walk home and the happy afternoon pickup.

TIMELINE

0-5s	Ready at the door
5-10s	Sidewalk walk
10-15s	Goodbye at the gate
15-20s	Looking back
20-25s	Afternoon pickup

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Ready at the door): Front hallway on a crisp autumn morning, daylight through the door's small window, shoes lined up on a mat. A five-year-old boy with a small green backpack sits on the floor pulling on his sneakers. The dog sits by the door with his leash already in his mouth, tail sweeping the floor. Sound: zipper, tail thumping, owner laughs "he is more ready than you". 5-10s (Sidewalk walk): Neighborhood sidewalk, cool sunny morning, red and orange leaves on the ground, parked cars. The boy holds the owner's hand on one side, the dog walks on a loose leash on her other side, matching their pace. The boy reaches over and pats the dog's back as they walk. Sound: leaves crunching, a school bus far away, chatter. 10-15s (Goodbye at the gate): Outside a low chain-link school fence with an open gate, sunny autumn morning, other families blurry in the background, no signs visible. The boy kneels and hugs the dog around his neck. The dog stands still and licks the boy's cheek once, then watches him walk through the gate. Sound: kids chattering far off, a bell ringing, boy says "bye, see you later". 15-20s (Looking back): Same leafy sidewalk heading home, cool morning sun. Only the owner and the dog now. The dog walks a few steps, stops, and turns his head back toward the school, ears up. The owner's hand gives the leash a gentle tug and he follows, looking back once more. Sound: footsteps, leaves blowing, owner says softly "he will be back soon". 20-25s (Afternoon pickup): Outside the same chain-link school fence, sunny afternoon, long shadows on the sidewalk. The boy comes running out with his green backpack bouncing. The dog's whole back end wiggles, he whines happily and leans into the boy as he throws his arms around him. Sound: happy whining, kids shouting, boy laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
