Grandpa and Him, Every Morning

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Grandpa and the dog share the same morning routine: the bedroom door greeting, coffee on the porch, a slow walk to the mailbox, a gentle ball toss in the front yard and a nap in the armchair.

TIMELINE

0-5s	Door greeting
5-10s	Porch coffee
10-15s	Mailbox walk
15-20s	Gentle toss
20-25s	Armchair nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Door greeting): Upstairs hallway, early morning, pale daylight from a window at the end, a runner rug on the floor. A bedroom door opens and grandpa, a man in his late 70s with white hair and a brown cardigan, steps out. The dog is already waiting and leans his whole side against grandpa's legs, tail swinging. Sound: door creaking, tail thumping the wall, grandpa says "morning, partner". 5-10s (Porch coffee): Front porch, cool early morning, soft overcast light, a wooden rocking chair and a potted plant. Grandpa in his brown cardigan sits rocking slowly with a mug of coffee. The dog sits close beside the chair, and grandpa's free hand rests on his head as they both look out at the quiet street. Sound: rocking chair creaking, birds, a car passing slowly. 10-15s (Mailbox walk): Front yard and short gravel driveway, morning daylight, dew on the grass. Grandpa with white hair walks slowly down to the mailbox using a wooden cane. The dog walks right beside him at the same slow pace, no leash, stopping when he stops and sniffing the mailbox post. Sound: gravel crunching, a cane tapping, birds. 15-20s (Gentle toss): Same front yard, mid-morning sun, patchy lawn and a low hedge. Grandpa in his cardigan sits on a garden chair and gives a short underhand toss of a worn tennis ball. The dog trots after it, brings it back and places it carefully in grandpa's open hand. Sound: ball bouncing softly, grandpa chuckling "good catch". 20-25s (Armchair nap): Living room, late morning daylight through lace curtains, a big floral armchair. Grandpa is dozing in the armchair with his reading glasses on his forehead and a blanket on his knees. The dog lies stretched on the rug with his head resting on grandpa's slippers, both breathing slowly. Sound: soft snoring from both, clock ticking, birds outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
