Through Every Storm

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A stormy afternoon spent together: rain on the window, a power cut with a lantern, wrapped in a blanket, watching the rain ease from the back door and a puddle walk after the storm passes.

TIMELINE

0-5s	Rain on the window
5-10s	Power goes out
10-15s	Blanket wrap
15-20s	Rain easing
20-25s	Puddle walk

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Rain on the window): Living room on a dark stormy afternoon, grey light, heavy rain streaming down a big window, a couple of lamps on. The owner sits on the couch in a sweater and the dog lies pressed against her side, ears twitching at each rumble of thunder as her hand strokes his back. Sound: heavy rain, rumbling thunder, owner says softly "I am right here". 5-10s (Power goes out): Same living room, the lamps flicker and go out, leaving only dim grey storm daylight from the window. The owner's hand switches on a small battery camping lantern on the coffee table. The dog sits up close against her knees, looking at the lantern and then up at the camera. Sound: rain pounding, a click, thunder, fridge going silent. 10-15s (Blanket wrap): Same living room lit by the small lantern and grey window light, rain still heavy. The owner drapes a thick plaid blanket over both her lap and the dog's shoulders. He leans his head against her chest, eyes half closed, and gives a long slow sigh as the thunder rolls. Sound: rain, distant thunder, blanket rustling, a deep sigh. 15-20s (Rain easing): Back door of the kitchen, late afternoon, the glass door open a crack, soft grey light, the rain turning to a light drizzle over a wet backyard. The dog stands in the doorway sniffing the fresh air, ears forward, tail slowly starting to wag again. Sound: light dripping, birds starting to sing, sniffing. 20-25s (Puddle walk): Neighborhood street after the storm, early evening, wet pavement, puddles, small branches and leaves scattered around, clouds breaking up. The dog walks on a leash beside the owner's rain boots, splashes through a shallow puddle and stops to sniff a fallen branch. Sound: splashing, dripping trees, a car rolling by on wet road.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
