Anniversary Walk Where It All Began

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every anniversary the couple walks the river trail where they first met because the dog ran up to the partner: the trailhead, the walk, the footbridge, sniffing the riverbank and a bench break.

TIMELINE

0-5s	At the trailhead
5-10s	The trail walk
10-15s	The footbridge
15-20s	Riverbank sniff
20-25s	Bench break

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (At the trailhead): River trailhead on a crisp autumn morning, soft overcast light, a small gravel parking area and a wooden trail post. The dog jumps down from the back of a car, shakes himself off and sniffs the trail post eagerly while the owner's hand clips on his leash. Sound: car door, a shake and jingle, owner says "you know this place". 5-10s (The trail walk): Dirt trail along a wide calm river, autumn morning, orange and yellow trees, overcast daylight. Her partner, a man with glasses and short hair in a green jacket, holds the leash and the dog trots ahead of him, tail up, stopping to sniff the leaves along the edge. Sound: river flowing, leaves crunching, birds. 10-15s (The footbridge): Small wooden footbridge over a side creek on the same trail, cool morning, overcast light. The owner and her partner stop in the middle, his arm around her shoulders, both seen from behind. The dog sits between their legs on the planks, looking out at the water. Sound: creek trickling, partner says "right here, four years ago". 15-20s (Riverbank sniff): Grassy riverbank beside the trail, autumn morning, the water calm and shallow at the edge. The dog sniffs along the bank on his leash, nose deep in tall grass, then lifts his head and watches a duck paddling past without pulling, ears up. Sound: duck quacking, water lapping the bank, sniffing. 20-25s (Bench break): Wooden bench by the river trail, overcast late morning, a steel thermos on the seat. The owner and her partner sit side by side, seen from behind, sharing a thermos cup. The dog lies on the path in front of them and rests his chin on the partner's boot. Sound: river flowing, cups clinking, a contented dog sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

We met on this river trail because he ran up and stole my partner's glove.
Every anniversary: same walk, same little matchmaker.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
