He Stayed by My Bed When I Was Sick

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The owner is home with the flu and the dog never leaves her: lying beside the couch, bringing his toy, staying close when soup arrives, napping against the couch and wagging when she feels better.

TIMELINE

0-5s	Couch watch
5-10s	Bringing his toy
10-15s	Soup arrives
15-20s	Afternoon nap
20-25s	Feeling better

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Couch watch): Living room, grey overcast morning light, a couch with a knit blanket, a box of tissues and a mug of tea on the side table. The owner, a woman with dark wavy hair, rests on the couch under the blanket. The dog lies on the rug right beside her, chin on the couch edge, eyes on her face. Sound: soft cough, rain outside, a gentle dog sigh. 5-10s (Bringing his toy): Same living room, overcast late morning light. The dog walks over carrying his soft rope toy and gently sets it on top of the knit blanket covering the owner's legs. Then he sits beside the couch, looking at her, tail sweeping the rug slowly. Sound: soft footsteps, owner laughs weakly "for me?". 10-15s (Soup arrives): Same living room, midday grey daylight. Her partner, a man with glasses and short hair, carries a bowl of soup on a tray and sets it on the side table. The dog stays lying beside the couch, watching calmly, not moving from his spot even when the partner pats his head. Sound: tray clinking, partner says "he has not moved all day". 15-20s (Afternoon nap): Same living room in the afternoon, curtains half drawn, dim soft daylight. The owner is asleep under the knit blanket on the couch. The dog lies stretched along the bottom of the couch on the rug, his back pressed against it, eyes closed, breathing slowly. Sound: quiet room, soft snoring, rain on the window. 20-25s (Feeling better): Same living room in the evening, ordinary lamp light. The owner sits up on the couch with the blanket around her shoulders, looking brighter, and pats the cushion. The dog stands up, tail wagging, and gently rests his head on her lap while she rubs his ears. Sound: tail thumping the couch, owner says "I am okay now, nurse".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
