Our First Snow, Every Year

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The first snowfall of every winter follows the same happy ritual: watching it fall, the leap into fresh snow, rolling on his back, running circles around the owner's snow angel and a towel dry inside.

TIMELINE

0-5s	Watching it fall
5-10s	The big leap
10-15s	Rolling in snow
15-20s	Snow angel circles
20-25s	Towel dry

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Watching it fall): Living room early morning, soft white daylight from a window, first snowflakes falling over the quiet fenced backyard outside. The dog stands with his nose close to the window, head tilting as he tracks the flakes, tail slowly starting to wag. Sound: quiet room, a soft whine, owner says "it is snowing, you know what that means". 5-10s (The big leap): Back door opening onto a snowy backyard, early morning, white overcast daylight, a thin fresh layer of snow on the grass and fence. The dog bounds out the door and leaps into the snow, plowing his nose through it and kicking up powder. Sound: door opening, snow crunching, a happy snort. 10-15s (Rolling in snow): Same snowy backyard, light snow still falling, soft grey daylight. The dog flops onto his back and wriggles side to side in the snow, legs kicking happily in the air, then flips over and shakes the snow off his coat. Sound: snow crunching, grunting, owner laughing. 15-20s (Snow angel circles): Same backyard, snowy morning, flat white light. The owner, a woman with dark wavy hair in a puffy coat and knit hat, lies on her back making a snow angel. The dog runs circles around her, then sniffs her face and gives her cheek a quick lick. Sound: snow swishing, owner shrieking with laughter, panting. 20-25s (Towel dry): Back entryway inside, morning, ordinary ceiling light, a rubber mat with snowy boots. The owner's hands rub the dog all over with a striped towel, snow melting on his coat. He leans into the towel, eyes half closed, then shakes and sprays drops everywhere. Sound: towel rubbing, dripping, a big shake, owner laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching it fall

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room early morning, soft white daylight from a window, first snowflakes falling over the quiet fenced backyard outside. The dog stands with his nose close to the window, head tilting as he tracks the flakes, tail slowly starting to wag. Sound: quiet room, a soft whine, owner says "it is snowing, you know what that means".

Clip 2 | 5-10s | The big leap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
