MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Picking the tree): Small Christmas tree farm on a cold grey afternoon, rows of fir trees, light snow on the ground. The dog walks on a leash between the trees, sniffing the base of one tree, while her partner, a man with glasses and short hair, holds a hand saw at his side and points at it. Sound: crunching snow, partner says "he picked this one". 5-10s (Decorating): Living room in the evening, ordinary lamp light and string lights on a tree, boxes of decorations on the carpet. The owner's hand hangs a red ornament high on the tree. The dog lies on the carpet nearby, watching, his head following her hand up and down. Sound: ornaments clinking, holiday music softly in the background. 10-15s (Red scarf): Same living room by the decorated tree, evening lamp light. The owner, a woman with dark wavy hair, ties a red knit scarf loosely around the dog's neck. He sits still, then wags as she steps back and he looks at the camera with the scarf on. Sound: string lights buzzing faintly, owner says "every year, buddy". 15-20s (Baking day): Kitchen on a snowy afternoon, white daylight from the window, flour on the counter and a tray of plain cut-out cookies. The dog sits politely on the tile floor. The owner hands him his own plain dog biscuit from a separate jar instead of a cookie, and he crunches it happily. Sound: oven fan humming, crunching, owner laughing. 20-25s (Stocking time): Living room in the morning by a fireplace with a safety screen, soft daylight and string lights. A red stocking lies on the floor. The dog noses into it and pulls out a new squeaky toy, squeaks it and carries it proudly around the coffee table. Sound: fire crackling behind the screen, squeaking, family laughing.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
