Our Senior Boy

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A gentle everyday look at our 12-year-old boy: waking up on his bed, a soft breakfast, pottering in the yard, a lap cuddle and a happy tail thump at bedtime.

TIMELINE

0-5s	Slow wake-up
5-10s	Soft breakfast
10-15s	Yard potter
15-20s	Lap cuddle
20-25s	Bedtime tail thump

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Slow wake-up): Living room corner, early morning, pale grey daylight through thin curtains, beige carpet. The dog lies on a worn brown dog bed, lifts his head, blinks, then pushes up carefully on his front legs and does a long stiff stretch, back legs trembling a little, before his tail starts to wag at the camera. Sound: quiet room, a long creaky yawn, tail swishing on the bed, owner says "morning, old man". 5-10s (Soft breakfast): Small kitchen, morning window light, beige tile floor with a rubber mat. The owner's hand sets down a steel bowl of kibble softened with warm water in a raised wooden stand. The dog walks over carefully, lowers his grey face and eats steadily, ears relaxed, a few soggy pieces dropping onto the mat. Sound: bowl tapping the stand, soft chewing, collar tag clinking on the steel bowl. 10-15s (Yard potter): Small backyard, overcast mid-morning daylight, patchy grass, a wooden fence and a plastic garden chair. The dog walks along the fence line at an easy pace, nose low, sniffing the grass and a clump of weeds, stops to look back at the camera, then carries on sniffing with a lazy tail wag. Sound: birds, distant traffic, the dog sniffing, grass rustling under his paws. 15-20s (Lap cuddle): Living room sofa, early afternoon, soft daylight from a side window, a grey throw blanket. The owner, a woman in her early 30s with dark wavy shoulder-length hair, sits on the floor. The dog lowers himself down beside her and rests his white-grey chin on her knee while her hand strokes his ears. Sound: a deep contented sigh, fabric rustling, owner whispers "there you are". 20-25s (Bedtime tail thump): Bedroom at night, ordinary warm bedside lamp light, wooden floor, the dog's brown bed beside the owner's bed. The dog lies curled on his bed with eyes half closed. The owner's hand reaches down to rub his chest and his tail thumps slowly against the bed three or four times. Sound: tail thumping on the bed, a soft groan, owner says "night night, sweet boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Slow wake-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Living room corner, early morning, pale grey daylight through thin curtains, beige carpet. The dog lies on a worn brown dog bed, lifts his head, blinks, then pushes up carefully on his front legs and does a long stiff stretch, back legs trembling a little, before his tail starts to wag at the camera. Sound: quiet room, a long creaky yawn, tail swishing on the bed, owner says "morning, old man".

Clip 2 | 5-10s | Soft breakfast

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
