0-5s	Grey face close-up
5-10s	Same happy greeting
10-15s	Kitchen lean
15-20s	Old rope toy
20-25s	Goodnight kisses

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Grey face close-up): Bedroom, early morning, soft grey-blue light through half-open blinds. Point of view from the owner lying in bed. The dog rests his white-grey muzzle on the edge of the mattress, cloudy brown eyes looking up, and slowly sniffs the owner's hand when it reaches out to touch his grey whiskers. Sound: quiet room, soft sniffing, owner says "look at that grey face". 5-10s (Same happy greeting): Front hallway, late afternoon, daylight from the open door, shoes and a doormat on the floor. The owner steps inside carrying a tote bag. The dog walks up from the living room at an easy trot, whole back end wiggling, tail sweeping wide, and pushes his grey face into her legs. Sound: door closing, claws on the floor, happy whines, owner laughing "hi, hi, I missed you too". 10-15s (Kitchen lean): Kitchen, early evening, ordinary ceiling light, beige tile floor. The owner, a woman in her early 30s with dark wavy shoulder-length hair, stands chopping carrots at the counter. The dog walks over and leans his whole side against her legs, eyes half closed, while her free hand drops down to scratch his neck. Sound: knife on a cutting board, a soft groan from the dog, owner says "still my kitchen helper". 15-20s (Old rope toy): Living room, evening, warm floor lamp light, patterned rug. The dog walks in carrying a frayed blue and white rope toy in his mouth, gives it a gentle shake, then drops it beside the owner's feet and looks up at the camera with ears soft and tail wagging. Sound: tags jingling, the rope landing on the rug, owner says "you still love that thing". 20-25s (Goodnight kisses): Living room sofa at night, ordinary lamp light, a knitted blanket over the cushions. The owner leans down close to the camera side and the dog, lying on a dog bed by the sofa, stretches his grey neck up and gives two gentle licks to her cheek before settling his head back down. Sound: soft licking, owner giggling quietly, a long sleepy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
