Using His Ramp Into the Car

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Jumping into the car got hard, so he learned his new ramp: harness on, first sniff of the ramp, walking up into the back seat, buckled safely, and walking down at the park.

TIMELINE

0-5s	Harness on
5-10s	Ramp sniff
10-15s	Walking up
15-20s	Buckled in
20-25s	Down at the park

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Harness on): Front hallway, morning, daylight from the open front door, a doormat and shoes on the floor. The dog stands calmly while the owner's hands buckle a padded black car harness around his chest. He wags his tail and looks out the door toward the driveway. Sound: buckle clicking, tags jingling, owner says "car ride, buddy". 5-10s (Ramp sniff): Driveway, overcast morning daylight, a silver SUV with its rear side door open. A grey non-slip dog ramp leans from the ground up to the back seat. The dog walks over carefully and sniffs the bottom of the ramp, nose moving along the grippy surface, tail low and wagging. Sound: birds, a neighbor's lawnmower far away, sniffing. 10-15s (Walking up): Same driveway, overcast daylight. The dog places his front paws on the grey ramp and walks up step by step toward the back seat. The owner, a woman in her early 30s with dark wavy shoulder-length hair, walks right beside him with one hand lightly on his harness, guiding him. Sound: paws on the ramp surface, owner says "good, easy, you got it". 15-20s (Buckled in): Inside the SUV back seat, daytime light through the windows, grey fabric seats covered with an old blanket. The dog sits on the back seat as the owner's hand clips a short seatbelt tether to his harness. The window beside him is only partly down and he sniffs the fresh air at the gap. Sound: tether clicking, car door open, light breeze, owner says "safe and sound". 20-25s (Down at the park): Park parking lot beside a grassy field, overcast late morning daylight, trees in the background. The grey ramp rests from the back seat down to the ground. The dog walks carefully down the ramp with the owner's hand on his harness, steps onto the grass and starts sniffing happily. Sound: paws on the ramp, birds, distant children, owner says "we made it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Harness on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Front hallway, morning, daylight from the open front door, a doormat and shoes on the floor. The dog stands calmly while the owner's hands buckle a padded black car harness around his chest. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
