Sunny Naps in His Golden Years

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A day of chasing sunbeams: a morning patch of sun on the floor, moving with the sun, a lawn nap beside me, dreaming paws and a big yawn on the porch.

TIMELINE

0-5s	Morning sunbeam
5-10s	Following the sun
10-15s	Lawn nap
15-20s	Dreaming paws
20-25s	Porch yawn

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Morning sunbeam): Living room, sunny morning, a bright rectangle of sunlight on a light wooden floor near a window, dust floating in the air. The dog lies stretched out inside the patch of sunlight on his side, eyes closed, his grey coat warm and fuzzy, ribs rising and falling. Sound: quiet house, soft breathing, a car passing far outside. 5-10s (Following the sun): Same living room, late morning, the patch of sunlight has moved a little across the wooden floor. The dog lifts his head, gets up carefully, walks two steps into the new sunny spot and lowers himself back down with a groan, settling his chin on his paws. Sound: a creaky groan, claws on wood, owner laughing "you moved with the sun again". 10-15s (Lawn nap): Backyard lawn, sunny midday, a plaid blanket on the grass, a paperback book lying on it. The owner, a woman in her early 30s with dark wavy shoulder-length hair, sits on the blanket. The dog lies beside her in the sun, his back pressed against her leg, eyes closed. Sound: birds, bees buzzing far off, pages turning, soft snoring. 15-20s (Dreaming paws): Close view on the same plaid blanket in the backyard, bright midday sun. The dog lies on his side fast asleep, white-grey muzzle twitching, front paws making little running movements and his lips puffing with soft muffled woofs as he dreams. Sound: tiny muffled woofs, paws brushing the blanket, owner whispering "he is chasing something". 20-25s (Porch yawn): Back porch, late afternoon, warm low sunlight across the wooden boards and a potted geranium. The dog wakes on a folded blanket, stretches his front legs far out, opens his mouth in a huge squeaky yawn, then blinks at the camera and thumps his tail. Sound: squeaky yawn, tail thumping, birds settling, owner says "good nap?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning sunbeam

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Living room, sunny morning, a bright rectangle of sunlight on a light wooden floor near a window, dust floating in the air. The dog lies stretched out inside the patch of sunlight on his side, eyes closed, his grey coat warm and fuzzy, ribs rising and falling. Sound: quiet house, soft breathing, a car passing far outside.

Clip 2 | 5-10s | Following the sun

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
