Bucket List Day - The Beach

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He had never seen the ocean, so we took him on a calm day: first steps on the sand, paws in the gentle foam, sniffing seaweed, a towel rest and an easy shoreline stroll.

TIMELINE

0-5s	First sand steps
5-10s	Paws in the foam
10-15s	Seaweed sniff
15-20s	Towel rest
20-25s	Shoreline stroll

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (First sand steps): Quiet sandy beach, calm overcast morning, flat grey sea with tiny waves, a few rocks far away. The dog steps off a wooden boardwalk onto the soft sand on a loose blue leash, sniffs it carefully, then takes a few curious steps, paws sinking slightly, the owner's legs right beside him. Sound: soft waves, seagulls, wind, owner says "this is the beach, buddy". 5-10s (Paws in the foam): Edge of the water on the same calm beach, overcast morning light, wet packed sand. The dog wears a bright orange dog life vest and stands with his paws where a thin, gentle line of foam rolls in and slides around his feet. The owner stands close beside him holding the leash. Sound: tiny waves fizzing, seagulls, owner laughing "it is cold, huh". 10-15s (Seaweed sniff): Dry sand higher up the same beach, overcast daylight, a strip of dark seaweed and small shells. The dog, still in the orange life vest, sniffs along the seaweed with great interest, tail wagging, his grey nose dusted with a little sand. The owner's hand holds the loose leash close. Sound: busy sniffing, wind, waves in the background, a sneeze. 15-20s (Towel rest): Beach, overcast late morning, a striped beach towel spread on the sand beside a canvas bag and a water bottle. The dog, life vest off now, lies on the towel with sandy paws, drinking from a collapsible bowl the owner holds, then rests his chin down and watches the sea. Sound: lapping water, waves, wind flapping the towel edge. 20-25s (Shoreline stroll): Long flat shoreline, overcast late morning light, calm water and wet sand. The owner, a woman in her early 30s with dark wavy shoulder-length hair, walks along the sand with the dog at an easy pace on the loose leash right beside her, his tail swaying, leaving paw prints. Sound: soft waves, seagulls, footsteps in wet sand, owner says "bucket list, checked".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First sand steps

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Quiet sandy beach, calm overcast morning, flat grey sea with tiny waves, a few rocks far away. The dog steps off a wooden boardwalk onto the soft sand on a loose blue leash, sniffs it carefully, then takes a few curious steps, paws sinking slightly, the owner's legs right beside him. Sound: soft waves, seagulls, wind, owner says "this is the beach, buddy".

Clip 2 | 5-10s | Paws in the foam

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
