Bucket List Day - Windows Down Drive

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A long country drive just for him: safely buckled in the back seat, nose at the window gap, watching the fields, a dog ice cream stop and a sleepy ride home.

TIMELINE

0-5s	Buckling up
5-10s	Nose at the gap
10-15s	Watching the fields
15-20s	Dog ice cream stop
20-25s	Sleepy ride home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Buckling up): Inside a parked car in a driveway, sunny morning light through the windows, the back seat covered with a grey blanket. The dog sits on the back seat wearing a padded black car harness while the owner's hand clips a short seatbelt tether to it. He looks out the window, tail wagging. Sound: tether clicking, car door closing, owner says "road trip, old man". 5-10s (Nose at the gap): Back seat of the moving car, sunny morning, a quiet country road with green trees passing outside. The window beside the harnessed dog is only partly down. He pushes his grey nose into the gap, eyes half closed, ears fluttering a little in the breeze, nostrils working. Sound: engine hum, wind whistling through the window gap, sniffing. 10-15s (Watching the fields): Back seat of the moving car, late morning sunlight, open farm fields, wooden fences and a few cows far away passing by outside. The dog sits harnessed in, head turning to follow the view through the partly open window, ears perked, panting happily. Sound: engine hum, breeze, tires on the road, owner laughing from the front seat. 15-20s (Dog ice cream stop): Parked car at a small roadside farm stand, sunny midday, gravel lot and a red wooden shed. The owner, a woman in her early 30s with dark wavy shoulder-length hair, leans in through the open rear door and holds a small paper cup of dog ice cream made for dogs. The harnessed dog licks it happily. Sound: happy licking, gravel crunching, birds, owner says "bucket list treat". 20-25s (Sleepy ride home): Back seat of the moving car, warm late afternoon light, trees passing outside. The dog lies curled on the grey blanket still clipped in by his harness tether, white-grey chin resting on his paws, eyes closing. The window beside him is only partly down. Sound: engine hum, soft snoring, light breeze, quiet radio talk.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Buckling up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Inside a parked car in a driveway, sunny morning light through the windows, the back seat covered with a grey blanket. The dog sits on the back seat wearing a padded black car harness while the owner's hand clips a short seatbelt tether to it. He looks out the window, tail wagging. Sound: tether clicking, car door closing, owner says "road trip, old man".

Clip 2 | 5-10s | Nose at the gap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Sound: engine hum, soft snoring, light breeze, quiet radio talk.

FACEBOOK CAPTION

He got his windows-down drive and a dog ice cream.
Best Sunday ever, according to him.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
