Bucket List Day - Meeting Puppies

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He always loved puppies, so a friend let him meet her litter, calm and supervised: arriving, a first nose touch, a gentle lick, a puppy snuggle and watching them play.

TIMELINE

0-5s	Calm arrival
5-10s	First nose touch
10-15s	Gentle lick
15-20s	Puppy snuggle
20-25s	Watching them play

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Calm arrival): A friend's fenced backyard, soft overcast afternoon, short grass and a wooden deck. The dog walks in on a loose leash beside the owner's legs and lies down calmly on the grass, ears up, watching a small open pen nearby where puppies are sleeping. Sound: birds, tiny puppy squeaks, owner whispers "look who is here". 5-10s (First nose touch): Same backyard grass, overcast afternoon light. One 9-week-old fluffy black-and-tan German Shepherd puppy with floppy ears toddles toward the lying dog. The friend, a woman in her 40s in a green sweater, kneels right beside them. The puppy and the old dog gently touch noses. Sound: soft sniffing, a tiny puppy whine, friend says "easy, sweetheart". 10-15s (Gentle lick): Backyard grass, overcast afternoon. The 9-week-old fluffy black-and-tan puppy with floppy ears sits in front of the lying dog. The dog lowers his white-grey muzzle and gives the puppy's head one slow lick. The puppy wobbles and sits back down. The owner's hand rests nearby. Sound: a soft lick, puppy squeak, owner laughing quietly "so gentle". 15-20s (Puppy snuggle): Same backyard, overcast afternoon light, grass. The dog lies on his side and the 9-week-old fluffy black-and-tan puppy with floppy ears curls up against his chest and closes its eyes. The friend, a woman in her 40s in a green sweater, kneels close by, watching calmly. Sound: tiny puppy snores, a deep contented sigh from the dog, birds. 20-25s (Watching them play): Backyard deck steps, late afternoon overcast light. The dog lies on a blanket beside the owner's legs, ears up and tail sweeping slowly, watching two 9-week-old fluffy black-and-tan puppies tumbling softly together on the grass a few meters away while the friend sits beside them. Sound: puppy yips, tail sweeping the blanket, owner says "best day ever, huh".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
