Teaching the New Puppy His Ways

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

We brought home a puppy and the old man took over the training: a calm hello, sitting for dinner, the potty route, guarding the door together and nap time.

TIMELINE

0-5s	Calm hello
5-10s	Sitting for dinner
10-15s	The potty route
15-20s	Door duty together
20-25s	Nap time

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Calm hello): Living room, morning daylight from a window, beige carpet. The dog lies calmly on his grey dog bed while a 12-week-old fluffy dark sable German Shepherd puppy with floppy ears and a small green collar sniffs his grey face. The owner kneels right beside them watching. Sound: soft sniffing, a tiny puppy whine, owner says "gentle, both of you". 5-10s (Sitting for dinner): Kitchen, early evening, ordinary ceiling light, beige tile floor. The old dog sits politely waiting for his bowl. The 12-week-old fluffy dark sable puppy with floppy ears and a green collar sits down next to him, copying him. The owner's hands hold two steel bowls above them. Sound: kibble rattling, owner laughing "look, he is copying you". 10-15s (The potty route): Backyard, overcast morning, damp patchy grass and a wooden fence. The old dog walks calmly along his usual path to the far corner of the yard and the 12-week-old fluffy dark sable puppy with floppy ears and a green collar trots right behind him, following his every step. Sound: birds, paws on wet grass, owner says "show him the way". 15-20s (Door duty together): Front hallway, afternoon daylight from a narrow window beside the door, a doormat. The old dog lies facing the front door with his head up. The 12-week-old fluffy dark sable puppy with floppy ears and a green collar lies down right beside him, both looking at the door. Sound: quiet hallway, a car passing outside, owner whispering "little guard in training". 20-25s (Nap time): Living room, late afternoon, soft lamp light, the old dog's grey orthopedic bed. The old dog lies on his side and the 12-week-old fluffy dark sable puppy with floppy ears and a green collar is curled against his chest, both asleep. The owner's hand gently strokes the old dog's head. Sound: two kinds of soft snoring, a clock ticking, owner whispers "best teacher".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
