Still the Guardian at the Door

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He is old but still on duty: lying at his post, one deep woof at a sound outside, checking the window, greeting my partner home and back to his post.

TIMELINE

0-5s	At his post
5-10s	One deep woof
10-15s	Window check
15-20s	Partner home
20-25s	Back to his post

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (At his post): Front hallway, afternoon, daylight from a narrow frosted window beside the front door, a doormat and a pair of boots. The dog lies on a small rug facing the door, chin up, ears pointed forward, eyes on the door handle. Sound: quiet house, a clock ticking, distant traffic. 5-10s (One deep woof): Same front hallway, afternoon daylight. A car door slams outside. The dog lifts his head higher, ears perked, and lets out one deep, low woof, then stands up carefully on his stiff legs, tail held level, staring at the door with his grey head tilted. Sound: car door outside, one deep woof, owner laughing "okay, okay, I heard". 10-15s (Window check): Living room front window, afternoon overcast daylight, sheer curtains and a low windowsill. The dog walks over and pushes his white-grey muzzle between the curtains, looking out at the front yard and driveway, ears up, nose leaving a small smudge on the glass. Sound: curtains rustling, a soft huff, sniffing. 15-20s (Partner home): Front hallway, afternoon daylight from the open door. Her partner, a man in his early 30s with glasses and short hair, steps in carrying a backpack. The dog walks up wagging his whole back end, sniffs his hands and leans into his legs while he crouches to hug him. Sound: door closing, happy whining, partner says "hey, bud, good guard". 20-25s (Back to his post): Front hallway, late afternoon daylight, the small rug by the door. The dog walks back to his rug, turns once and lies down facing the door again, chin up, then lets out a satisfied sigh and slowly lowers his head onto his paws. Sound: claws on the floor, a satisfied sigh, owner says "all safe, chief".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | At his post

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Front hallway, afternoon, daylight from a narrow frosted window beside the front door, a doormat and a pair of boots. The dog lies on a small rug facing the door, chin up, ears pointed forward, eyes on the door handle. Sound: quiet house, a clock ticking, distant traffic.

Clip 2 | 5-10s | One deep woof

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
