His Paw Print Keepsake

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

We made a clay paw print to remember these sweet years: rolling the clay, gently pressing his paw, a treat and a paw wipe, the finished print and showing it to him.

TIMELINE

0-5s	Rolling the clay
5-10s	Gentle press
10-15s	Treat and wipe
15-20s	The finished print
20-25s	Showing him

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Rolling the clay): Living room floor, afternoon, bright overcast daylight from the window, a wooden cutting board on a towel. The owner's hands flatten a round disc of soft white air-dry clay with a small rolling pin. The dog lies right beside the board, watching and sniffing the air. Sound: rolling pin on clay, sniffing, owner says "this is for you". 5-10s (Gentle press): Same living room floor, overcast daylight. The dog lies calmly on his side on the towel. The owner, a woman in her early 30s with dark wavy shoulder-length hair, holds one of his front paws and presses it gently and softly into the white clay disc for a second, then lifts it. Sound: quiet room, owner whispering "gently, good boy, all done". 10-15s (Treat and wipe): Living room floor, overcast afternoon daylight. The owner's hand wipes the dog's front paw clean with a damp cloth, then offers him a small dog biscuit. He takes it gently from her fingers and crunches it, tail thumping on the towel. Sound: cloth wiping, biscuit crunching, tail thumping, owner says "good job". 15-20s (The finished print): Close view of the wooden board on the floor, overcast daylight. The round white clay disc shows a clear dog paw print with four toe pads, and a small heart pressed into the clay beside it. The owner's fingertip smooths the edge of the disc. No writing. Sound: soft fingertip on clay, the dog breathing nearby. 20-25s (Showing him): Living room coffee table, early evening, ordinary lamp light. The dried white clay paw print sits on the table. The dog walks up, sniffs it carefully with his white-grey muzzle, then looks at the camera, tail swaying, and lies down beside the table. Sound: sniffing, tags jingling, owner laughing "that is your paw, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Rolling the clay

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Living room floor, afternoon, bright overcast daylight from the window, a wooden cutting board on a towel. The owner's hands flatten a round disc of soft white air-dry clay with a small rolling pin. The dog lies right beside the board, watching and sniffing the air. Sound: rolling pin on clay, sniffing, owner says "this is for you".

Clip 2 | 5-10s | Gentle press

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. Same living room floor, overcast daylight. The dog lies calmly on his side on the towel. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
