# A Letter to My Dog

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

I wrote him a thank-you letter for all our years together: writing at the desk with him at my feet, a head scratch break, reading it to him, folding it and a long hug.

## TIMELINE

| **20-25s** | Long hug |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Writing at the desk): Small home office, evening, ordinary warm desk lamp light, a wooden desk with a mug. The owner's hand writes with a pen on a notepad tilted away from the camera so no words show. Under the desk, the dog lies across her slippered feet, eyes half open. Sound: pen scratching on paper, a clock ticking, the dog's soft breathing. 5-10s (Head scratch break): Same home office, warm desk lamp light. The owner, a woman in her early 30s with dark wavy shoulder-length hair, puts the pen down and reaches under the desk to scratch the dog's grey head. He lifts his chin into her hand and his tail sweeps the floor. Sound: tail sweeping the floor, owner whispering "I am writing about you". 10-15s (Reading it to him): Living room sofa, night, ordinary lamp light. The owner sits on the sofa holding the sheet of paper with its back to the camera, blank side showing. The dog lies on his bed at her feet looking up at her, ears moving as she reads to him quietly. Sound: paper rustling, owner softly reading "thank you for choosing me". 15-20s (Folding the letter): Same living room, night lamp light, a wooden coffee table. The owner's hands fold the sheet of paper with the blank side out and tuck it into a small wooden box next to his old grey slip leash. The dog sniffs the box curiously. Sound: paper folding, the box lid closing, sniffing. 20-25s (Long hug): Living room floor beside the dog bed, night, warm lamp light. The owner kneels and wraps both arms around the dog's neck in a long hug, her cheek on his grey head. He leans into her and his tail wags slowly against the bed. Sound: a soft sigh, tail patting the bed, owner whispers "best decision I ever made".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
