If Dogs Could Live Forever

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every day together counts, so we make each one full: a morning forehead kiss, an easy meadow walk, apple slices on the porch, a backyard selfie and stars from the porch.

TIMELINE

0-5s	Morning forehead kiss
5-10s	Meadow walk
10-15s	Apple slices
15-20s	Backyard selfie
20-25s	Stars from the porch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male short-coat grey sable German Shepherd with a white-grey muzzle and face, grey around the eyes, slightly cloudy eyes, a little thinner and stiffer, moving slowly and carefully but happy, wearing a faded dark red leather collar with a small brass tag. 0-5s (Morning forehead kiss): Bedroom, early morning, pale daylight through thin curtains, a rumpled grey duvet. The dog rests his chin on the edge of the bed and the owner, a woman in her early 30s with dark wavy shoulder-length hair, leans over and kisses his grey forehead. His tail sways behind him. Sound: quiet morning, tail swishing, owner whispers "another day with you". 5-10s (Meadow walk): Open meadow path, sunny late morning, tall green grass and small white wildflowers, a few trees far away. The dog walks at an easy pace on a loose leash beside the owner's legs, nose up to the breeze, ears soft, tail swaying happily. Sound: grass swishing, birds, wind, owner says "every day together counts". 10-15s (Apple slices): Back porch, sunny early afternoon, wooden steps and a potted fern. The owner sits on the top step and her hand offers the dog a thin slice of fresh apple with no seeds. He takes it gently and crunches it, then nudges her hand for another. Sound: crunching apple, birds, owner laughing "one more, okay". 15-20s (Backyard selfie): Backyard lawn, late afternoon, warm soft sunlight and a wooden fence. The owner kneels beside the dog with her cheek pressed against his grey head, filming the two of them from arm's length. He licks her chin and she laughs, both squinting in the sun. Sound: owner laughing, birds, owner says "say cheese, old man". 20-25s (Stars from the porch): Back porch at night, a dim porch light and a dark blue sky with a few stars. The dog lies on a thick blanket beside the owner's legs, head on his paws, both looking out at the quiet yard. Her hand rests on his back. Sound: crickets, soft breathing, owner whispers "we made today count".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
