Morning Nose Boop Greeting

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every morning starts with the same ritual: the cat finds the dog and they touch noses - in the bedroom, on the stairs, by the window, in the kitchen and out on the back step.

TIMELINE

0-5s	Bedside boop
5-10s	Stair greeting
10-15s	Window boop
15-20s	Kitchen boop
20-25s	Back step boop

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Bedside boop): Bedroom, early morning, grey-blue light through half-open curtains, unmade bed. The dog lies on a round dog bed on the floor, just waking up. An orange tabby cat with white paws and a white chest hops down from the mattress, walks straight to her and touches its nose to her nose. The dog blinks sleepily. Sound: quiet morning, soft thud of the cat landing, a sleepy dog groan. 5-10s (Stair greeting): Carpeted staircase with a wooden handrail, dim morning daylight from a landing window. The dog stands at the bottom of the stairs. The orange tabby cat with white paws and a white chest sits on the third step, which puts their heads level, and the two touch noses for a second. The dog's tail swings slowly. Sound: tail thumping the wall, small cat trill. 10-15s (Window boop): Living room, pale morning light through a front window, white windowsill with a small plant pot. The orange tabby cat with white paws and a white chest sits on the sill. The dog walks up and stretches her neck. The cat leans forward and boops her nose, then rubs its cheek along her muzzle. Sound: purring, a soft snort from the dog, birds outside. 15-20s (Kitchen boop): Small kitchen, morning daylight, beige tile floor, a coffee maker on the counter. The dog stands by the counter waiting for breakfast. The orange tabby cat with white paws and a white chest weaves between her front legs, stops, lifts its head and touches noses with her again. The owner's slippers are visible. Sound: coffee maker gurgling, purring, owner says "round two?". 20-25s (Back step boop): Open back door, cool overcast morning, concrete back step and a patchy lawn beyond. The dog stands on the step about to go outside. The orange tabby cat with white paws and a white chest sits inside on the doormat, stretches up and gives her one last nose boop before she trots out onto the grass. Sound: birds, screen door squeak, dog's paws on the step.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Bedside boop

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Bedroom, early morning, grey-blue light through half-open curtains, unmade bed. The dog lies on a round dog bed on the floor, just waking up. An orange tabby cat with white paws and a white chest hops down from the mattress, walks straight to her and touches its nose to her nose. The dog blinks sleepily. Sound: quiet morning, soft thud of the cat landing, a sleepy dog groan.

Clip 2 | 5-10s | Stair greeting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
