MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Cat claims it): Living room, mid-morning, a bright rectangle of sunlight on a light wooden floor from a tall window, a basket of folded laundry nearby. An orange tabby cat with white paws and a white chest lies stretched out in the middle of the sun patch. The dog walks in and stops at the edge, looking at it. Sound: quiet house, clock ticking, dog's claws on the wood. 5-10s (Dog squeezes in): Same living room, sunlight across the wooden floor. The dog lowers herself carefully and lies down along the edge of the sun patch, half her body in the light. The orange tabby cat with white paws and a white chest opens one eye, looks at her and then closes it again without moving. Sound: a heavy dog flop, owner chuckles quietly. 10-15s (Cozy stretch): Living room floor in bright sunlight, dust specks visible in the air. The dog rolls slightly onto her side and stretches her legs. The orange tabby cat with white paws and a white chest stretches too, front paws reaching out until they rest on her fluffy chest fur. Both lie with eyes half closed. Sound: long contented dog groan, soft purring. 15-20s (Patch moves): Later, the sunlight has shifted a few feet toward the couch, leaving them in shade on the wooden floor. The orange tabby cat with white paws and a white chest gets up, walks into the new sun spot and lies down. A moment later the dog stands, follows and lies down right next to the cat. Sound: paws padding, a sigh, owner whispers "they moved again". 20-25s (Sharing it): Close view of the sun patch near the grey couch, warm daylight on the floor. The dog and the orange tabby cat with white paws and a white chest lie pressed side by side in the small rectangle of sun. The owner's hand reaches in and slowly strokes the dog's back, then the cat's head. Sound: purring, slow breathing, distant lawn mower outside.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
