Napping Back to Back

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A lazy afternoon nap where the dog and the cat fall asleep back to back on the couch, with twitching ears, a dreaming paw, a shared stretch and a sleepy wake-up.

TIMELINE

0-5s	Settling in
5-10s	Back to back
10-15s	Ear twitch
15-20s	Dreaming paws
20-25s	Sleepy wake-up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Settling in): Living room, quiet afternoon, soft overcast daylight from a window, a big beige couch with mismatched cushions. The dog lies curled on one half of the couch. An orange tabby cat with white paws and a white chest hops up, turns around twice and lies down with its back pressed against her back. Sound: couch springs creak, cat's soft landing, quiet house. 5-10s (Back to back): Same beige couch in calm afternoon daylight. The owner films from above, moving a little closer. The dog and the orange tabby cat with white paws and a white chest sleep spine to spine, the cat's orange fur blending into her black saddle. Both breathe slowly, sides rising and falling together. Sound: slow breathing, faint purring, owner whispers "look at them". 10-15s (Ear twitch): Close view on the couch cushions, grey afternoon light. The dog's ear twitches in her sleep. The orange tabby cat with white paws and a white chest flicks its own ear at the same moment, then tucks its white paws under its chest and goes back to sleep against her fluffy back. Sound: a soft dog snore, ticking clock. 15-20s (Dreaming paws): Living room couch, dim overcast daylight. The dog dreams, her front paws making small running movements and her lips puffing softly. The orange tabby cat with white paws and a white chest lifts its head, looks back at her for a second, then lays its head down again without moving away. Sound: tiny muffled woofs, a sleepy cat chirp. 20-25s (Sleepy wake-up): Late afternoon, a table lamp now switched on beside the couch, light outside fading. The dog stretches her legs out long and yawns widely. The orange tabby cat with white paws and a white chest stretches at the same time, then both settle back down, still back to back. Sound: a big squeaky yawn, couch creak, owner laughs softly.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Settling in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Living room, quiet afternoon, soft overcast daylight from a window, a big beige couch with mismatched cushions. The dog lies curled on one half of the couch. An orange tabby cat with white paws and a white chest hops up, turns around twice and lies down with its back pressed against her back. Sound: couch springs creak, cat's soft landing, quiet house.

Clip 2 | 5-10s | Back to back

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
