Window Watch Together

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog and the cat keep watch at the front window together all day: a bird at the feeder, a neighbor walking by, a squirrel on the fence, falling leaves and the streetlights coming on.

TIMELINE

0-5s	Bird at feeder
5-10s	Neighbor walks by
10-15s	Squirrel spotted
15-20s	Falling leaves
20-25s	Streetlights on

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Bird at feeder): Front room, bright overcast morning, a wide window with a deep white sill and a bird feeder hanging outside on a pole. An orange tabby cat with white paws and a white chest sits on the sill. The dog stands beside it with her chin resting on the sill. Both stare at a small sparrow at the feeder. Sound: faint chirping through the glass, cat chattering quietly. 5-10s (Neighbor walks by): Same front window, midday daylight, quiet suburban sidewalk outside. A person in a plain jacket walks past in the distance. The dog's ears go up and her head turns to follow. The orange tabby cat with white paws and a white chest turns its head in exactly the same direction. Sound: a single low woof, owner says "it's just the neighbor". 10-15s (Squirrel spotted): Front window, afternoon daylight, wooden fence and a maple tree outside. A grey squirrel runs along the top of the fence. The dog leans forward, nose almost touching the glass, tail wagging. The orange tabby cat with white paws and a white chest crouches low on the sill, tail tip flicking. Sound: excited whine, cat chattering, tail hitting the couch. 15-20s (Falling leaves): Front window, cloudy late afternoon, a breeze blowing yellow leaves across the front lawn. The dog sits on the floor with her head tilted, watching. The orange tabby cat with white paws and a white chest sits above her on the sill, head moving side to side as the leaves drift past. Sound: wind outside, leaves tapping the window. 20-25s (Streetlights on): Front room at dusk, a floor lamp switched on inside, the street outside turning blue grey and a streetlight flickering on. The dog lies on the floor under the window, chin on her paws. The orange tabby cat with white paws and a white chest lies curled on the sill above her, both still watching. Sound: quiet house, distant car, a long dog sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Bird at feeder

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Front room, bright overcast morning, a wide window with a deep white sill and a bird feeder hanging outside on a pole. An orange tabby cat with white paws and a white chest sits on the sill. The dog stands beside it with her chin resting on the sill. Both stare at a small sparrow at the feeder. Sound: faint chirping through the glass, cat chattering quietly.

Clip 2 | 5-10s | Neighbor walks by

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
