MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Waiting together): Small kitchen, morning daylight through the window, beige tile floor, white cabinets. The dog sits by a stainless steel bowl on a rubber mat. A few feet away an orange tabby cat with white paws and a white chest sits by its own small ceramic bowl on a separate mat. Both look up at the owner. Sound: kitchen hum, a hopeful whine, a small meow. 5-10s (The pour): Same kitchen, bright morning light, beige tile floor. The owner's hand pours dry kibble from a scoop into the dog's steel bowl, then a smaller scoop of cat food into the cat's ceramic bowl. The dog waits, drooling slightly. The orange tabby cat with white paws and a white chest stands up, tail high. Sound: kibble rattling into steel, softer rattle in ceramic, owner says "okay". 10-15s (Eating side by side): Kitchen floor in morning daylight. The dog eats from her steel bowl and the orange tabby cat with white paws and a white chest eats from its own ceramic bowl a few feet away, both heads down, facing the same wall. The dog's bowl slides a little on the mat as she eats. Sound: loud crunching, tiny crunching, collar tag clinking on steel. 15-20s (Polite waiting): Kitchen, morning light, beige tiles. The dog has finished and licks her empty steel bowl. She lies down on the tile floor near her own bowl and watches the orange tabby cat with white paws and a white chest still eating slowly from its bowl. She does not move toward it. Sound: bowl being licked, slow cat crunching, owner whispers "good girl". 20-25s (Water and wash): Kitchen corner, morning daylight, a water bowl on a mat by the back door. The dog drinks noisily, water dripping from her chin onto the tiles. The orange tabby cat with white paws and a white chest sits nearby and licks its white paw, then wipes it over its face. Sound: loud lapping, dripping water, quiet licking.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
