MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Climbing aboard): Living room, soft afternoon daylight, a thick cream rug on a wooden floor. The dog lies flat on her belly. An orange tabby cat with white paws and a white chest walks over, puts its front paws on her side and carefully steps up onto her back, balancing on her black saddle. Sound: quiet room, a tiny cat grunt, owner gasps softly. 5-10s (Kneading): Same cream rug, natural afternoon light. The orange tabby cat with white paws and a white chest stands on the dog's back and kneads her long fluffy fur slowly with its white paws, left then right. The dog lifts her head, glances back over her shoulder and then lays her head down again. Sound: loud purring, owner whispers "she's making biscuits". 10-15s (Curling up): Living room rug in afternoon daylight. The orange tabby cat with white paws and a white chest turns in a small circle on the dog's back and lies down, curled into a ball on her saddle with its tail wrapped around its nose. The dog stays completely flat and still. Sound: purring, slow dog breathing. 15-20s (Not moving): Close view from the side at floor level, cream rug, soft daylight from the window. The dog's eyes move up toward the camera without lifting her head, as if checking with the owner. The orange tabby cat with white paws and a white chest sleeps on her back, rising gently with each breath she takes. Sound: purring, a quiet snort, owner laughs under breath. 20-25s (Long nap): Later, the room dimmer with a table lamp switched on. The dog has fallen asleep with her chin on the rug and her ear twitching. The orange tabby cat with white paws and a white chest is still curled on her back, one white paw dangling over her side. Sound: soft dog snoring, faint purring, quiet house.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
