MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Wand comes out): Living room, afternoon daylight, carpeted floor and a coffee table pushed aside. The owner's hand holds a stick wand toy with a short string and a small feather at the end, dangling it low. An orange tabby cat with white paws and a white chest crouches, eyes locked on the feather. The dog lies nearby watching. Sound: feather swishing, owner says "ready?". 5-10s (Cat bats): Same carpeted living room, natural daylight. The owner's hand flicks the feather in a small arc. The orange tabby cat with white paws and a white chest rises up and bats at it with both white paws. The dog's head follows the feather left and right, ears pointed forward. Sound: soft swishing, paws thumping the carpet, owner laughs. 10-15s (Dog's turn): Living room in afternoon light. The owner's hand moves the feather slowly in front of the dog. She sniffs it, then gently taps it once with her big front paw. The orange tabby cat with white paws and a white chest sits a little to the side, watching with its tail flicking. Sound: sniffing, a soft paw tap, owner says "gentle". 15-20s (Taking turns): Carpeted living room, daylight. The owner's hand swings the feather between them. The orange tabby cat with white paws and a white chest swats at it from one side while the dog play-bows on the other side with her tail wagging. They stay a calm distance apart, both focused on the feather. Sound: playful huff, swishing, tags jingling. 20-25s (Toy put away): Living room near a tall bookshelf, daylight fading a little. The owner's hand lifts the wand toy and places it on a high shelf out of reach. Below, the dog and the orange tabby cat with white paws and a white chest both sit side by side staring up at the shelf. Sound: owner says "that's it for today", a small disappointed whine.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
