MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Couch ambush): Living room, afternoon daylight, a grey couch with a corner gap by the wall. An orange tabby cat with white paws and a white chest crouches behind the couch corner, only its ears showing. The dog walks past slowly. The cat reaches out and taps her back leg with a soft white paw, claws in. Sound: quiet steps, a tiny tap, owner snorts with laughter. 5-10s (Play bow): Same living room in natural daylight, carpet floor. The dog turns around, sees the orange tabby cat with white paws and a white chest and drops into a gentle play bow, front legs low, tail wagging. The cat flattens its ears playfully and hops back behind the couch corner. Sound: a soft playful huff, tags jingling. 10-15s (Behind the door): Hallway, ordinary daylight from a bedroom doorway, a half-open white door. The orange tabby cat with white paws and a white chest peeks out from behind the door at floor level. The dog walks up and sniffs the gap. The cat pats her nose once with its paw and ducks back behind the door. Sound: sniffing, a little paw pat, owner whispers "got you". 15-20s (Blanket lump): Bedroom, afternoon light through thin curtains, a bed with a wrinkled blue blanket. A small lump moves under the blanket. The dog stands at the bed edge, tilts her head, then sniffs the lump. The orange tabby cat with white paws and a white chest pokes its head out from under the blanket edge. Sound: blanket rustling, sniffing, quiet laughing. 20-25s (Laundry basket): Laundry room, overhead light on, a plastic laundry basket with a few towels on a tile floor. The orange tabby cat with white paws and a white chest sits hidden in the towels. The dog looks in, and the cat gently pounces up, paws touching her chin. The dog wags and steps back. Sound: dryer humming, a small cat chirp, owner says "every time".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
