Sharing One Dog Bed

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog has a big bed, but it is never just hers: the cat steps in, they squeeze together, curl up, get a blanket from the owner and fall asleep in one bed.

TIMELINE

0-5s	Dog settles
5-10s	Cat steps in
10-15s	Squeezing in
15-20s	Blanket tuck
20-25s	Asleep together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Dog settles): Living room corner, early evening, a floor lamp switched on, a large round grey dog bed with a raised fluffy rim. The dog steps in, turns in a circle and lies down with a big sigh, taking up most of the bed. Sound: bed cushion squishing, a long dog sigh, TV murmuring in the background. 5-10s (Cat steps in): Same corner of the living room, warm lamp light. An orange tabby cat with white paws and a white chest walks up, sniffs the edge of the grey dog bed and steps inside over the rim, carefully placing its white paws in the small space beside the dog's belly. Sound: soft purring, owner whispers "there's no room". 10-15s (Squeezing in): Grey dog bed in lamp light, evening. The orange tabby cat with white paws and a white chest presses into the curve of the dog's body. The dog shifts her back legs to make room and curls tighter. The cat lies down against her fluffy belly, half on the rim. Sound: cushion rustling, a little dog grunt, purring. 15-20s (Blanket tuck): Living room corner, warm lamp light, evening. The owner's hands lay a small knitted blanket loosely over both of them in the grey dog bed. The dog lifts her head, then lays it back down. The orange tabby cat with white paws and a white chest only peeks out from under the edge. Sound: blanket rustling, owner says "goodnight you two". 20-25s (Asleep together): Later, the room darker with only the floor lamp on. The dog sleeps with her chin resting on the bed rim. The orange tabby cat with white paws and a white chest sleeps curled in the curve of her body, one white paw stretched across her front leg. Sound: soft snoring, faint purring, quiet house.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Dog settles

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Living room corner, early evening, a floor lamp switched on, a large round grey dog bed with a raised fluffy rim. The dog steps in, turns in a circle and lies down with a big sigh, taking up most of the bed. Sound: bed cushion squishing, a long dog sigh, TV murmuring in the background.

Clip 2 | 5-10s | Cat steps in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
