MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Watching rain): Living room, heavy overcast daylight, a glass patio door with rain running down it and a wet wooden deck outside. The dog sits close to the door looking out. An orange tabby cat with white paws and a white chest sits beside her, tail wrapped around its feet, watching the drops. Sound: steady rain on the deck, water dripping from the gutter. 5-10s (Sharing the rug): Living room, dim grey daylight, a thick striped rug in front of the couch. The dog lies on the rug. The orange tabby cat with white paws and a white chest walks over and lies down against her chest, tucking its white paws under itself. The dog lowers her head beside the cat. Sound: rain tapping the windows, soft purring. 10-15s (Chew time): Same striped rug, grey rainy light, a table lamp switched on. The dog holds a rubber chew toy between her front paws and chews on it. The orange tabby cat with white paws and a white chest sits a short distance away and watches her with half-closed eyes. Sound: squeaky rubber chewing, rain, owner says "cozy day". 15-20s (Thunder rumble): Living room in dim rainy daylight, lamp on. A far-off thunder rumble. The dog lifts her head and her ears perk up. The orange tabby cat with white paws and a white chest presses closer against her side. The owner's hand reaches in and strokes both of them calmly. Sound: distant low thunder, rain getting heavier, owner says "it's okay". 20-25s (Rainy nap): Couch in the living room, late afternoon, rain still streaking the windows, a soft lamp light. The dog lies stretched along the couch under a throw blanket. The orange tabby cat with white paws and a white chest sleeps on top of the blanket near her fluffy tail. Sound: rain on the roof, soft snoring, purring.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
