MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Fence line check): Fully fenced backyard, bright overcast morning, tall wooden fence, patchy grass and a few raised vegetable beds. The dog walks slowly along the fence, nose to the ground. An orange tabby cat with white paws and a white chest walks a few steps behind her on the grass, tail held high. Sound: birds, distant lawn mower, owner says "patrol time". 5-10s (Catnip bed): Backyard, soft overcast daylight, a small wooden raised bed with a leafy catnip plant and some parsley. The orange tabby cat with white paws and a white chest rubs its cheek against the catnip leaves. The dog stands beside the bed sniffing the soil and the wooden edge. Sound: leaves rustling, loud purring, buzzing insects. 10-15s (Bee on lavender): Garden corner, overcast daylight, a lavender bush by the fence with one bee hovering over it. The dog tilts her head and watches the bee from a respectful distance. The orange tabby cat with white paws and a white chest sits next to her, eyes following the bee. Sound: bee buzzing, birds, owner says "leave it". 15-20s (Garden path): Backyard, cloudy midday, a narrow path of flat stepping stones between garden beds. The dog walks down the path. The orange tabby cat with white paws and a white chest walks right beside her on the stones. The owner's feet in rubber garden boots follow behind with the camera. Sound: paws on stone, boots on gravel, birds. 20-25s (Bench break): Backyard, overcast afternoon, an old wooden garden bench by the fence. The dog lies in the shade under the bench, panting gently. The orange tabby cat with white paws and a white chest sits on the bench right above her, cleaning a white paw, as both look out over the garden. Sound: light panting, wind in the leaves, distant dog barking.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
